

## I'm dead bru.

Gen dead. I just tried pad.riseup.net and uhm...

*People can very easily impersonate me. Yikes.*

What if someone uploads illegal content? Then there's nothing I can do because there's no report button and all the government agencies require a phone number in order for you to make a report to them. All I can do is delete the infringing content and pray.

Goodbye...

*my pad (read-only ofc because I've had enough chaos with edits done to the write-acess version of my pad on Neocities): <https://pad.riseup.net/p/r.11386fa71b339745fca6f4ed1861c26b> [My pad](#)*
